

FREE Mentoring and Advice service for User Led Organisations in Hampshire

If you are a User Led Organisation or community group in Hampshire our FREE Mentoring and Advice service can help you with:

- **Setting up and getting constituted**
- **Organisational development, governance and management**
- **Support and advice on income generation opportunities and diversifying funding streams**
- **Service development**

And much more...

Some of the groups we have helped

A small BAME community Group wanted help with organising and funding a multi cultural event. Our Mentoring support was able to help them to identify suitable funding sources, work out a detailed budget, and put together a funding application to the National Lottery which was successful. We also helped them with forming an organising committee and promoting the event.

A small ULO needed help with a funding application as the funders had asked a lot of additional questions particularly about the costs and they were unsure about how to answer these. Our Mentor's detailed knowledge of the sorts of information funding bodies require meant that we were able to help them understand why the funders were querying particular cost items, and to draft answers to send them. This resulted in all of the requested funding being approved.

A local ULO contacted us looking for help with developing a business plan for developing a new support service which they hoped would generate income to help the group to become more secure and sustainable. Our Mentoring support helped them to draw up a workable plan and budget. We also helped them do some basic market research to find out what other services were available locally and what would be a suitable rate to charge for their own service. They are now well on the way to getting this service up and running.
